If you can't explain it to a six year old, you don't understand it yourself.

-Albert Einstein

BLOCKCHAIN

 A tamper-resistant distributed ledger used to validate and store digital transactional records (Techopedia)

WHY IS IT A BIG IDEA?

Blockchain technology has the potential to boost global GDP by 1.4% (USD\$1.76 trillion) by 2030 (PwC, 2023)

WHY IS IT A BIG IDEA? (NIGERIAN CONTEXT)

Blockchain could increase Nigeria's GDP by \$29 billion by 2030, about 3% of the total estimated GDP

akdown of the contribution of Blockchain to the Nigerian Economy by key pillar (2021 - 2030)

BLOCKCHAIN APPLICATION

CREDENTIALS VERIFICATION

WHY IS IT A BIG IDEA?

Fake degree market \$ 7 billion dollars a year in sales world wide with much of that market in the United States and the Middle East, particularly the Gulf region. That's exploded from \$1 billion in 2004.

(Forbes 2023)

Forgery of education credentials is a global challenge that affects even the most renowned institutions.

It has or will affect Africa disproportionately and has far-reaching effects.

In Kenya, a lawyer who had won 26 court cases was found to have faked his credentials in 2023.

Kenya Officials Arrest Fake Lawyer Who Won 26 Court Cases

Mwenda had been able to portray himself as a qualified attorney for a considerable amount of time, according to the report, and judges did not doubt his abilities until after his most recent arrest. World News | Edited by Anoushka Sharma | Updated: October 15, 2023 2:01 pm IST

"Dhoni Told Management...": CSK Official's Big Retirement Revelation

TRENDING

Supply Chain Africa (digital web magazine) reported in March 2023 that Cases of fraud, fake degrees, and fake credentials have been rampant in Ethiopia. Last April alone, the government identified over 200,000 fake degree certificates, according to the magazine.

Nigerian authorities have struggled with fake credentials; recently, Nigeria announced that it would no longer recognize credentials from universities in Togo, Benin, Uganda, and Kenya over high fraud cases

PRESIDENTIAL ELECTIONS

aljazeera.com/features/2023/10/26/how-a-certificate-scandal-almost-upset-tinubus-presidential-win-in-niger

Features

How a certificate scandal almost upset Tinubu's presidential win in Nigeria

Thursday's court ruling puts to rest the most intense election battle the West African country has seen in decades.

These scandals hurt young Africans as they seek jobs in the gig economy, as global companies are concerned about the validity of their credentials.

NATIONAL BLOCKCHAIN POLICY (2023)

https://nitda.gov.ng/wp-content/uploads/2023/05/National-Blockchain-Policy.pdf

Vision

To create a Blockchain-powered economy that supports secure transactions, data sharing, and value exchange between people, businesses, and Government, thereby enhancing innovation, trust, growth, and prosperity for all.

Mission

We encourage the use, adoption, and integration of Blockchain Technology in the various sectors of Nigeria's digital economy in order to increase economic prosperity, efficiency, innovation, transparency, security, and trust.

PROOF OF CONCEPT

A BLOCKCHAIN-BASED CERTIFICATE VERIFICATION SYSTEM

The reliance on paper-based records and manual data entry introduces a high risk of errors, inaccuracies, and inconsistencies in student academic credentials. These errors can result in incorrect information being stored, leading to difficulties in verifying the authenticity and accuracy of student credentials.

PROBLEMS

- Data Inaccuracy and Inconsistency
- Time-Consuming Verification Process
- Lack of Data Security
- Limited Accessibility and Transparency
- Manual Administrative Burden
- Difficulty in Adaptation and Future-Proofing

THE RESULTS

THE RESULTS

ADVANTAGES

- Easy Access to Records
- Data Privacy and Consent
- Streamlined Verification Process
- Enhanced Data Security
- Trust and Reliability
- Timely and Responsive Support

Implementing a blockchainbased system revolutionizes the management and verification of student academic credentials, providing a secure, reliable, and transparent platform for all stakeholders involved.

THANK YOU FOR LISTENING
